George Meyuefer knew Jack and Isabel Stevens. Jack told him that the store had been in the family for years and that he was born in the house. He told tales of climbing the tree across from the house and seeing both the Schuylkill and the Delaware from his perch.

(1914 Edward R. Sharman is listed as the postmaster in McKinley. He is living with his children in 1910..but by the 1920 Census Christine Sharman(his wife) born in Scotland, a widow, living with her six children on Ogontz Ave. lists her occupation as a merchant candy store) By 1930, one of her children is located at Girard College, another at Carson Valley. I am assuming that she is deceased by that time.
